## PEELED TOMATOES IN SAUCE

## DATA SHEET

The organic peeled tomatoes are harvested in our fields during the summer months, when these fruits are at their maximum, and stored in glass in a few hours after being finely hand peeled. This allows you to keep the genuine taste of our tomato intact. Their use in the kitchen is versatile thanks to their sweet taste. It is necessary to use first, second, rustic pizzas and pizzas or to create original recipes. Whatever your dish, organic peeled tomatoes will bring the scent of summer into the house.

**INGREDIENTS:** Fresh tomatoes \*, water, basil \*, sea salt, acidifier: citric acid.

**\*Organic**
